VT55 OBDII

Universal TPMS tool

- ■ **POCKET SIZE**

- ■ **EASY OPERATION**

- ■ **LARGE GRAPHIC DISPLAY**

- ■ **ECU REPROGRAMMNG EXTENSION**

- ■ **UPGRADABLE**

Main Features

*T*he ATEQ's VT55 OBDII is a universal TPMS tool sensor activator that can also program the vehicle ECU if required. Compatible with all currently known TPMS sensors, it has a built in synchronization software that makes sure that it stays up-to-date with all the new TPMS sensors introduced every year.

The VT55 OBDII can handle high volume testing throughout the day due to its rechargeable battery. The VT55 OBDII is equipped with the latest advanced stream decoding technology that can trigger and decode sensors much faster and more accurately than previous generation

- LF (TX) 125 kHz continuous or modulated (OOK)

- RF: receptor with variable frequencies allowing to receive frequencies used by TPMS sensors.
