FIND THE
RIGHT REPLACEMENT

The tool guides you to the compatible sensors and part numbers for any vehicle, and indicates the correct torque values.

PROGRAM
AND RELEARN

Quickly program aftermarket sensors, one wheel at a time. For relearn, use the VT36 with a diagnostic scan tool or follow the auto relearn or manual relearn instructions in the car user manual. Note: The VT36 does not provide OBDII relearn functionality.

The ATEQ VT36 offers functionality and flexibility at an affordable price. Designed for tough service station environments, its rugged casing and durable rechargeable battery stands up to routine activities in the service bay. Thanks to frequent updates, the newest TPMS sensors and vehicles are introduced each year.
